Decoration

1

Thematic Decoration

In recent years, decorations with certain themes or often called thematic decorations are on the rise. In fact, not a few customers are willing to spend deep enough to realize the concept of decorating their dreams.

Arabian Decoration

The Middle East does present quite an interesting culture at parties. This unique Arabian decoration is able to steal the attention of the invited guests. If you're looking for inspiration about an Arabian-style party, here are Middle Eastern decor inspirations that you might consider.

Thematic Decoration

Garden Decoration

One of the decoration themes that are chosen is a garden party or outdoor. Yes, the concept of a party that is synonymous with western nuances has many fans from many people. Decorations that emphasize natural nuances are indeed considered warmer and slick to look at.

Betawi Decoration

Betawi decoration The shape is very simple and simple with a basic box shape. Like a residence, Rumah Betawi also has a living room, family room, and an additional terrace.

Imlek Decoration

Chinese New Year Decorations Every street, building, and house where the Spring Festival is celebrated will be decorated in red. Red is the main color of the festival, because red is believed to be the color of good luck.

Thematic Decoration

City-Urban Decoration

Arranging Modern Urban-style decorations which are now increasingly trending. The Modern Urban concept is indeed increasingly in demand because it is easy to apply with a minimalist, lighted and more affordable motif, and has its own charm that is very popular with modern urban communities.

Thematic Decoration

Stage

Stage Decoration

Stage decoration can be interpreted as all objects that have an aesthetic value for performances that are functioned to strengthen a dance performance. So, this decoration focuses more on the effect or influence of an object that is used to help strengthen the show.

Stage

Stage

Booth

Booth Decoration

Exhibition events can be used as a place for companies to introduce their products as well as promote to many people. The trick is to make a stand or booth that is designed as attractive as possible so that many people visit. Stand decoration is not easy to do. One solution is to use the services of an exhibition contractor.

Booth

3D Decoration

3D Decoration

Decorations on the backdrop indirectly have a significant impact on the overall design appearance. The 3D decoration panel acts as a centerpiece that can help you express the personality and character of your dream design in an instant with unique and luxurious artworks.

Backdrop

Backdrop

backdrop is an interesting decoration or ornament that is applied to a wall, room divider, or similar surface. The ornaments that are applied can be hung, nailed, pasted or using similar methods.

Exhibition Panel

Exhibition Panel

The definition of a partition or bulkhead is a flexible room divider, a partition that can be installed and moved as desired. The use of a partition as a room divider where one room has a different function. In addition to the function of a room divider, partitions can also function as decorative accents to conceptualize interiors. such as a Backdrop so that its presence can make a room feel more alive, an empty impression can be avoided thanks to the presence of a backdrop.

Tent Decoration

Tent Decoration

Tent Decoration with a general tent model is made as beautiful as possible by adding various furniture according to the concept desired by the client. For example, adding various kinds of flowers and choosing the color of the tent. This will certainly make your event look festive.

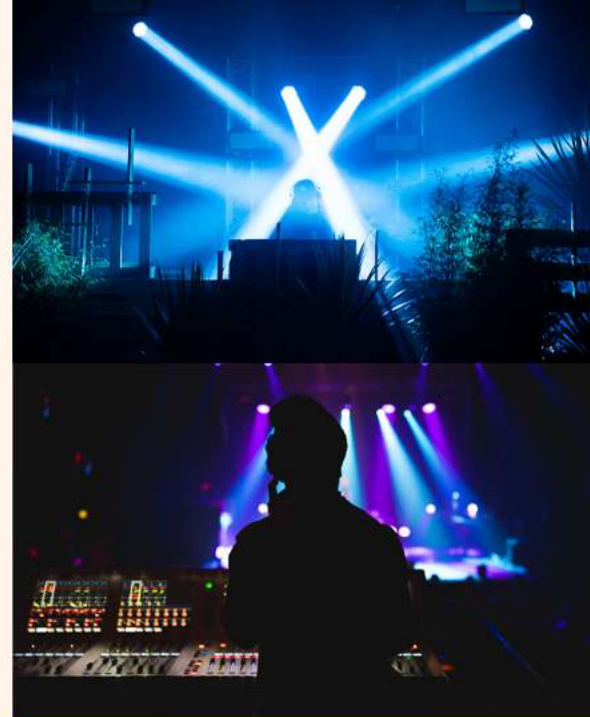

1A

Production

Sound System

The sound system is a unified audio device that produces sound / sound processes, whether it be vocals from our mouths or from other sound sources so that the sound can be heard by our ears.

1

Lighting

One of the important elements in theater performances is lighting. Lighting is the arrangement of lighting equipment, in this case it is to illuminate the stage to support a performance.

2

LED Screen

LED, is a flat panel display with light emitting diodes as a form of video display. An LED display panel can be a small screen or part of a larger screen.

3

2

Event Management

Event Management can be defined as organizing an activity that is managed professionally, systematically, efficiently and effectively. Its activities cover concept (planning) to implementation to supervision.
